Sprint Plan week 4

GUI: Mark, Jim, Kevin and Jordy, 10-15 hours pp.
Actions for next week: Focusing on the demo, adding multiple buttons.

- A button for veggie and a screen that will display after pressing it.
- Connect send/requests
- Users

Side Note: Jordy will not focus on these tasks but on connecting the GUI to the server.

Server/Database: Giacomo, Jordy, Filip and Edin.
- Server should be able to receive requests from the client to add an activity from the database. (10-15 hours)
- It should be able to make queries (basic ones) (2+- hours pp)
